## QUEER SITUATION IN SCHOOL BOARD

Majority May Be Republican By One Vote

and Another Seems to He Disqualified,

CANDIDATES FOR SECHETARY.

Complications, attendant on disqualifications and declinations, are keeping school trustees elect on the anxious seat regarding the organization of the new board, which will be effected New Year's night, or whntever night they adjourn to.

The new board as it stands on the face of the returns shows a Democratic insjority of two, but two memhera-elect absolutely refuse to serve and a third, it is claimed, is disqualified, because he works for a railroad This would give the Republicans a majority of one among the nine mem bers reminling, and there will be new deal all around, the Democrats men to qualify foug enough to organize the hoard. Even then they will be "up against it " for the two resigning may not vote for their own success sors, and it is just possible that the charter will be ignored and the third member allowed to qualify in order to meet a political exigency

The new board is composed of the following Democrats elected this fall: Watson. The holdovers are Republit, and outline business. cans: W. M. Karnes, it, T. Davis, Dr. A. List, C. W. Morrison and W. S. Walston.

This makes the board stand seven with Maxwell out of the way and the majority goes the other way,

The Organization,

In this state of affairs indications point to the election of U. S. Walston as president; and possibly Frank May, the incumhent secretary. The latter was elected to fill the vncancy created by the resignation of Dr. Pitcher, An odd situation arises in connection with this office. When Dr. Pitcher was elected the members were not well acquainted with the law and overlooked a palpable objection, that a member should draw any renunerution, whatever from the board. The place pays \$300 the year. Besides Mr. May, P. J. Beckenbach, retiring member, and W. T. Hyrd, trusteeelect, are candidates. The lutter is disqualified unless he resigns from the board.

Northwest Farmers Desperate From Lack of Coal.

Minneapolis, Minn., Dec. 19. The interstate commerce commission laquiry into Northwest transporations brought out facts of importance. Telegrams began to pour in early today and when reports were in from more than 20 towns it was clear that the commission had acted none too quickly In securing the promise of co-operation on the part of the coal companies and the railroads, for in some localities far mers have been burning their fences and the outhuildings, and In other towns piles of valuable lumber were ent up into fuel to keep people from freezing to death.

The approaching close of the football season of 1906 permits a summary of the effect of the new rules The changes were dictated by, many protests against the danger and injurles involved in the eld methods in which beef and brute force were the conquering elements.

When the changes were first tried the conservative element in the game induiged in sarcasms as to making It a "slssy game." After a season's trial the agreement is practically unanimous that it iras improved the game in action, permitted a wider variety of skill and given more scope to head work. The game is by no means free from injuries; but the proportion of sections casualties has been vastly reduced, and the liveliness and interest of the game have ben enhanced in almost equal proportion .- Pittsburg Dispatch.

Queer Things Made From Milk,

You could build a house of milk if you ilked, and it would be as strong and lasting as though made of Aberdeen granite, says M. Glen Fling in Technical World Magazine for January. Moreover, all the fittings could be made of the same substance and they would outlive the finest ordinary material that was ever con-

structed. Billiard balls, combs, faucy hoxes, and many other things are made from tho new substance, galalith. which is made from milk.

There is really no limit to the ardeles which can be made from galalith. It takes dyes readily and inferior grades are colored. The best remain white, however, for white galalith brings the highest price because of its similarity to ivory. The dry, Seventh and Adams. CHAPTER XL E CATINAT in the meanwhile was perfectly aware of the Importance of the mission whileh had been assigned to him. He knew enough of the intrigues and natugonisms with which the court was full to understand that every preenution was necessary in carrying out his lustructions. He watted, therefore, until night had fallen before ordering his soldier-servant to bring round the two horses to one of the less public gates of the grounds. As he and his friend walked together to the soot he gave the young American a rapid sketch of the situation at the court and of the chunce that this noctumal ride might be un event which would affect the future lilstory of France,

Are you armed?" he asked. "You have no sword or platols?"

"No; If I may not carry my gun 1 that I have never learned to use, I have my kulfe. Itht why do you ask?" "Because there may be danger. Many have in interest in stopping this marrlace. All the first men of the kingdom are bitterly against it. If they rought at least."

"But I thought It was secret."

"There is no such thing ut a court. There is the dumphin or the king's brother. Elither of them or any of their should be in the Schie before we reached the archibishop's house this night. But who is this?"

Bad Blood.

You can not make sweet butter in a foul, nuclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be torpid, sluggish and foul the result will be torpid, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-relined glycerine heing used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable mediciae, instead of a deleterions agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various terms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. "It is one of the best manufactured prodocts of the present time in its action open enteebled, disordered stomachs; especially if there is internation or catarrhal gastrilis (catarrhal linflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastrie acidity. It is useful in chronic litestinal dyspepsia, especially the final lent variety, and in certain forms of chronic consipation, with colden Seal roof. Stone root.
